**Schenectady has launched its
Comprehensive Plan Update!**

Let's take on the big questions and issues and get to the bottom of how we can make the City of Schenectady work best for you!

Come to the Electric City Recharged launch event & public workshop, where we will have a brief presentation on the project followed by discussion with you to identify what you think the City's top priorities should be.

Electric City Recharged is a vision for our future and should be driven by you, the residents of Schenectady.

So come join us!
